The beneficiary of this year's event will be the Child Life Program/Resource Center at the Bristol-Myers Squibb Children's Hospital in New Brunswick, New Jersey. Sometimes overwhelmed by the stress of a child's illness, families need a haven, a non-clinical space where they can regroup and find information to reinforce their coping skills. The center offers such a space for patients and families. Your generous contributions will provide accessibility to health and parenting information, enhance the patient library with age appropriate reading materials, and furnish technology tools for educational purposes.
